

Parent Pager

Child Check-In

Safety underlies everything we do with children here at First Baptist Church, so we have invested in a state of the art computer check-in system (Parent Pager) that provides protection and silent pagers for parents while they are away from their children. Families will need to check-in their children through a Parent Pager station before sending them to their classrooms.

Our first time guest will need to complete the one time registration at the Parent Pager station by the nursery in the education building B. At this station, your picture will be taken and your contact information will be entered into the system. Parents completing this one time registration can use the Parent Pager Express Check-in for each visit thereafter.

Express Check-in

You will find Parent Pager Express Check-in Stations throughout education buildings A and B. These stations are designed to help you quickly and easily check-in your children. The monitors are "touch screens" so you will not be required to use a keyboard or mouse, simply touch the monitor.

1. Touch "Child In."
2. Scan Prox ID card.
3. Select guardian.
4. Select each child.
5. Touch "Next."
6. Press "Finish."
7. Remove name tags from printer and apply to each child's back.
8. Pick up check-in sheet from printer.
9. Take each child and check-in sheet to assigned classroom.

ALL pagers are available ONLY at the check-in station by the nursery in the education building B. All babies and younger toddlers are assigned pagers as well as visitors.
